## **Deleuze and Guattari, Politics and Education: For a People-Yet-to-Come**

*Deleuze & Guattari, Politics and Education* mobilizes Deleuzian-Guattarian philosophy as a revolutionary alternative to the lingering forms of transcendence, identity politics, and nihilism endemic to Western thought. Operationalizing Deleuze and Guattari's challenge to contemporary philosophy, this book presents their view as a revolutionary alternative to the lingering forms of transcendence, identity politics, and nihilism endemic to the current state of Western formal education. This book offers an experimental approach to theorizing, creating an entirely new way for educational theorists to approach their work as the task of revolutionizing life itself. Examining new conceptual resources for grappling with and mapping a sustainable political alternative to the clichés that saturate contemporary educational theory, this collection of essays works toward extracting a genuine image of education and learning that exists in sharp contrast to both the neo-liberal educational project and the critical pedagogical tradition.
