Beginning NFC: Near Field Communication with Arduino, Android, and PhoneGap Tom Igoe, Don Coleman, Brian Jepson

Jump into the world of Near Field Communications (NFC), the fast-growing technology that lets devices in close proximity exchange data, using radio signals. With lots of examples, sample code, exercises, and step-by-step projects, this hands-on guide shows you how to build NFC applications for Android, the Arduino microcontroller, and embedded Linux devices.

You'll learn how to write apps using the NFC Data Exchange Format (NDEF) in PhoneGap, Arduino, and node.js that help devices read messages from passive NFC tags and exchange data with other NFC-enabled devices. If you know HTML and JavaScript, you're ready to start with NFC.

- Dig into NFC's architecture, and learn how it's related to RFID
- Write sample apps for Android with PhoneGap and its NFC plugin
- Dive into NDEF: examine existing tag-writer apps and build your own
- Listen for and filter NDEF messages, using PhoneGap event listeners
- Build a full Android app to control lights and music in your home
- Create a hotel registration app with Arduino, from check-in to door lock
- Write peer-to-peer NFC messages between two Android devices
- Explore embedded Linux applications, using examples on Raspberry Pi and BeagleBone

From reader reviews:

Ellen Farnsworth:

The book untitled Beginning NFC: Near Field Communication with Arduino, Android, and PhoneGap is the book that recommended to you to learn. You can see the quality of the guide content that will be shown to anyone. The language that article author use to explained their ideas are easily to understand. The article writer was did a lot of exploration when write the book, and so the information that they share to you personally is absolutely accurate. You also can get the e-book of Beginning NFC: Near Field Communication with Arduino, Android, and PhoneGap from the publisher to make you more enjoy free time.

Joe Vizcarra:

The particular book Beginning NFC: Near Field Communication with Arduino, Android, and PhoneGap has a lot of knowledge on it. So when you make sure to read this book you can get a lot of advantage. The book was published by the very famous author. The writer makes some research ahead of write this book. This specific book very easy to read you can get the point easily after scanning this book.

John King:

Do you really one of the book lovers? If yes, do you ever feeling doubt if you find yourself in the book store? Try and pick one book that you never know the inside because don't evaluate book by its handle may doesn't work is difficult job because you are scared that the inside maybe not since fantastic as in the outside search likes. Maybe you answer can be Beginning NFC: Near Field Communication with Arduino, Android, and PhoneGap why because the great cover that make you consider concerning the content will not disappoint you. The inside or content is usually fantastic as the outside as well as cover. Your reading 6th sense will directly assist you to pick up this book.

Tabitha Devore:

Some people said that they feel fed up when they reading a publication. They are directly felt it when they get a half portions of the book. You can choose often the book Beginning NFC: Near Field Communication with Arduino, Android, and PhoneGap to make your current reading is interesting. Your own skill of reading expertise is developing when you similar to reading. Try to choose simple book to make you enjoy to read it and mingle the opinion about book and studying especially. It is to be initial opinion for you to like to open a book and learn it. Beside that the guide Beginning NFC: Near Field Communication with Arduino, Android, and PhoneGap can to be your brand-new friend when you're truly feel alone and confuse in doing what must you're doing of these time.
