Geometry, Relativity and the Fourth Dimension (Dover Books on Mathematics)

Rudolf Rucker

Geometry, Relativity and the Fourth Dimension (Dover Books on Mathematics) Rudolf Rucker

This is a highly readable, popular exposition of the fourth dimension and the structure of the universe. A remarkable pictorial discussion of the curved space-time we call home, it achieves even greater impact through the use of 141 excellent illustrations. This is the first sustained visual account of many important topics in relativity theory that up till now have only been treated separately.

Finding a perfect analogy in the situation of the geometrical characters in *Flatland*, Professor Rucker continues the adventures of the two-dimensional world visited by a three-dimensional being to explain our three-dimensional world in terms of the fourth dimension. Following this adventure into the fourth dimension, the author discusses non-Euclidean geometry, curved space, time as a higher dimension, special relativity, time travel, and the shape of space-time. The mathematics is sound throughout, but the casual reader may skip those few sections that seem too purely mathematical and still follow the line of argument. Readable and interesting in itself, the annotated bibliography is a valuable guide to further study. Professor Rucker teaches mathematics at the State University of New York in Geneseo. Students and laymen will find his discussion to be unusually stimulating. Experienced mathematicians and physicists will find a great deal of original material here and many unexpected novelties. Annotated bibliography. 44 problems.

From reader reviews:

Linda Callaway:

Do you have favorite book? Should you have, what is your favorite's book? Guide is very important thing for us to know everything in the world. Each reserve has different aim or maybe goal; it means that e-book has different type. Some people feel enjoy to spend their the perfect time to read a book. They are really reading whatever they consider because their hobby is usually reading a book. Consider the person who don't like reading through a book? Sometime, particular person feel need book if they found difficult problem or even exercise. Well, probably you will need this Geometry, Relativity and the Fourth Dimension (Dover Books on Mathematics).

Michael Milliner:

The particular book Geometry, Relativity and the Fourth Dimension (Dover Books on Mathematics) has a lot of knowledge on it. So when you check out this book you can get a lot of advantage. The book was authored by the very famous author. The author makes some research ahead of write this book. This particular book very easy to read you can get the point easily after scanning this book.

Elizabeth Fischer:

Do you really one of the book lovers? If so, do you ever feeling doubt if you find yourself in the book store? Make an effort to pick one book that you never know the inside because don't evaluate book by its protect may doesn't work the following is difficult job because you are scared that the inside maybe not since fantastic as in the outside look likes. Maybe you answer might be Geometry, Relativity and the Fourth Dimension (Dover Books on Mathematics) why because the excellent cover that make you consider regarding the content will not disappoint you. The inside or content will be fantastic as the outside or perhaps cover. Your reading 6th sense will directly make suggestions to pick up this book.

Robin Harvey:

You can find this Geometry, Relativity and the Fourth Dimension (Dover Books on Mathematics) by visit the bookstore or Mall. Only viewing or reviewing it might to be your solve difficulty if you get difficulties for the knowledge. Kinds of this book are various. Not only by written or printed but also can you enjoy this book by means of e-book. In the modern era just like now, you just looking by your mobile phone and searching what your problem. Right now, choose your personal ways to get more information about your publication. It is most important to arrange yourself to make your knowledge are still revise. Let's try to choose proper ways for you.
