La naturaleza del espacio y del tiempo (Spanish Edition)

Stephen Hawking

La naturaleza del espacio y del tiempo (Spanish Edition) Stephen Hawking

Un interesante y fascinante debate entre dos gigantes de la ciencia, Stephen Hawking y Roger Penrose, sobre el origen y el futuro del universo.

Einstein afirmaba que lo más incomprensible acerca del universo es que es comprensible. ¿Estaba en lo cierto? ¿Pueden la teoría cuántica de campos y la teoría de la relatividad general de Einstein, las dos teorías, más precisas y exitosas de toda la física, unirse en una única teoría cuántica de la gravedad? Aunque se ha avanzado mucho en esta búsqueda, Hawking y Penrose insisten en que es necesario llegar mucho más lejos.

En *La naturaleza del espacio y el tiempo*, estos dos gigantes de la física entablan un debate fundamental sobre el origen del universo. Un libro escrito a cuatro manos, con un epílogo actualizado, en el que los autores resumen cómo los recientes acontecimientos han provocado que sus posturas difieran en cuestiones tan importantes como la geometría espacial del universo o la paradoja de la desaparición de información en los agujeros negros.

La prensa especializada opina...

«Una obra reveladora sobre dos aproximaciones distintas a algunos de los mayores problemas sin resolver de la gravitación y la cosmología.»

New Scientist

«Un debate entre Hawking y Penrose alimenta las expectativas del lector por asistir a un intercambio extraordinario de ideas. En este texto, animado con el sentido del humor de Hawking, las expectativas se cumplen con creces.»

The Higher Education

«Un magnífico y estimulante intercambio intelectual entre dos mentes de primera categoría.»

Library Journal

«Una lectura interesantísima para el presente que promete ser aún más interesante para las futuras generaciones de físicos.»

Science

«Un documento de gran rigor científico.»

Physics World

From reader reviews:

Shalon Fisk:

What do you think about book? It is just for students as they are still students or the idea for all people in the world, the particular best subject for that? Simply you can be answered for that query above. Every person has different personality and hobby for every single other. Don't to be compelled someone or something that they don't need do that. You must know how great and important the book La naturaleza del espacio y del tiempo (Spanish Edition). All type of book would you see on many solutions. You can look for the internet methods or other social media.

Alvaro Holloway:

Are you kind of stressful person, only have 10 as well as 15 minute in your moment to upgrading your mind proficiency or thinking skill also analytical thinking? Then you are receiving problem with the book as compared to can satisfy your short period of time to read it because pretty much everything time you only find e-book that need more time to be study. La naturaleza del espacio y del tiempo (Spanish Edition) can be your answer mainly because it can be read by you who have those short spare time problems.

David Earnest:

You will get this La naturaleza del espacio y del tiempo (Spanish Edition) by look at the bookstore or Mall. Just viewing or reviewing it can to be your solve problem if you get difficulties for the knowledge. Kinds of this e-book are various. Not only simply by written or printed but additionally can you enjoy this book by e-book. In the modern era like now, you just looking because of your mobile phone and searching what their problem. Right now, choose your ways to get more information about your publication. It is most important to arrange you to ultimately make your knowledge are still change. Let's try to choose right ways for you.

Jennifer David:

As a pupil exactly feel bored in order to reading. If their teacher questioned them to go to the library or make summary for some e-book, they are complained. Just tiny students that has reading's heart and soul or real their passion. They just do what the trainer want, like asked to the library. They go to presently there but nothing reading critically. Any students feel that studying is not important, boring along with can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important for you personally. As we know that on this time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore , this La naturaleza del espacio y del tiempo (Spanish Edition) can make you experience more interested to read.
