**Life, New, Dust and Water AND Dark Star Box Set: YA Fantasy Bundle (A Magical Saga)** cassandra webb

This Bundle includes two novels, two novella's and a bonus story. Here's the blurbs from them all:

All Kemla dreams of is an adventure.

When she's kidnapped by slave traders, meets a mage, becomes a bargaining tool and is attacked by bandits, she gets more than she ever wanted.

But will she earn her freedom?

Kemla lives the kind of boring, hiding out from certain death, type life that makes her dream of adventure, of escaping, of freedom. Her life takes a trilling and adventurous turn. Being a slave, a captive in chains, is terrifying, but her lust for freedom is now so much more tangible.

Then she meets Leon Swiftsight. A dark and mysterious slave trader with a gentle side which is obvious to her.

Leon may be her only hope, but he's not making her life any easier. Well, if you don't count rescuing her from the quarters of a particularly nasty trader with her pants still on.

When secrets from her past bubble to the surface she may have burnt the only bridge she had, Leon may never even look at her again, and she still needs to find a way to escape before the slave traders reach their final destination and she bows to a new master.

Magic is outlawed, but slave trading is a legitimate profession, which causes some problems for Kemla when she's captured by slave traders and accused of possessing magic. This series is highly recommended for all the Tamora Pierce fans out there. With a strong female protagonist, who manages to get herself into a lot of trouble, and a cute male slave trader who keeps making sure she can't escape.

New - Book 2.

Kemla once dreamed of adventure, but then she was kidnapped. Now she has her freedom all she wants is to stay alive.

When she's almost attacked by a cute guy, then almost killed defending a stranger, not to mention her issues with slave traders, she finds her freedom is hard to keep. Until Orin decides he likes her.

But will their love be enough?

Dust and Water.

A Song For the Stained Novella

Hunter doesn't dream of much. I mean a good meal and a days rest from his uncles hard labor would be nice,

but not essential. Hunter is a survivor.

Then he sees a girl on a white horse take a risk, and Hunter wonders if he could do the same. Can he make friends, discover compassion and warmth, avoid having a bucket of mud thrown over his head, not to mention the bandits? Can he earn respect?

His hope rests in the kindness of a girl, a girl he can't even bring to call by her name. She holds the key to his freedom, to the beginning of a new life for Hunter.

The decision to stray from the beaten track and embark on an adventure, to dare to live a life thrilling and scary and unchartered, isn't an easy one for shy Hunter - but it could pay off. It could change everything.

But will taking a risk be enough?

Dark Star.

A Song For The Stained Novella

Remember is a good girl, even if she's fatherless and labelled a Dunk, but she lives a peaceful life with her mother until the evening Leon Swiftsight knocks softly on her door.

She's dragged into a world of spies and war councils, magic and deception. Where she's not sure who her enemies are and what choices she's left with. Join Remember as she discovers the meaning behind her name, the strength behind her magic, and just what choices she's been left with.

The song for the stained novella's all feature diversity and they are all clean reads. Bringing young adult fantasy to readers of all ages, from 10up, and diversity to all children. These books are stand alone, allowing the reader to read just one, but they are also woven into each other and readers of the series will be delighted to see what their old favourite characters are up to.

Inspired by works such as Tamora Pierce and Maria V Snyder, these stories are a traditional fantasy, with a kiss ass type female protagonist, the heroin, with a destiny and a mission that will change her life.
