It's 1939 - war is imminent for the people of Britain. It is becoming increasingly clear that every able bodied man will be needed on the battlefield and that British women will have to take over the jobs the men left for military service. This is the narrative of Scottish women in particular - through their stories, experiences, and sacrifices - how they not only kept Scotland and Britain alive but helped change the course of history.

"Some historians like to think that the British were very fortunate when Hitler grew impatient with his attempt to run over the British Isles, becoming distracted, then moving his attention to the Russian Front. I take a different perspective. Hitler found that it was much tougher to defeat the British people than he or any of his top aides ever imagined. We had many losses in our military and civilian population, but we were able to call upon every available man to fight on the frontline because we had a secret weapon at home keeping the country surviving - Our Women!!!" – Jeanette B. Reid
