## **The Secret History of the Reptilians: The Pervasive Presence of the Serpent in Human History, Religion and Alien Mythos** Scott Alan Roberts

"Fortunately, Scott Roberts boldly goes where few men have surfaced from, providing a well-balanced, innovative, and insightful approach to the topic."

--Philip Coppens, author of *The Ancient Alien Question*

"In the midst of a daunting modern landscape of pseudointellectualism, the edges of which are lined with the vague, whimsical paranoia of reptilian conspiracies, Scott Alan Roberts breathes some much needed life into the debate over the reptilian archetype in our myth and culture."

--Micah Hanks, author of *The UFO Singularity*

"Roberts has done every Christian a service by bringing together the myths of various cultures and religions surrounding the figure of the serpent, coupling them with the UFO phenomena, and posing very serious questions regarding the origins of faith, the veracity of Sacred Scripture, and the nature of spiritual and temporal reality. This book isn't just another 'ancient alien' offering, with the usual evidence and conclusions, but a tapestry of religious, archaeological, and cultural information designed to challenge not only the easy answers of faith, but the

entrenched sanctity of the science of anthropology."

--Fr. Jack Ashcraft, Byzantine Catholic Priest

The very real probability that non-human intelligences visited and even copulated with primordial humans is detailed in civilization's most ancient cultural and religious records. These historical records further reveal that these intelligences were reptilian in nature--or, at the very least, have been represented throughout human history in reptilian form.

From the Serpent, Nachash, in the Garden of Eden; Atum, the Egyptian snake-man; and Quetzalcoatl, the feathered serpent god of the Mayans to the double-helix snake symbol of Enki/Ea in ancient Sumerian literature, the serpent has been the omnipresent link between humans and the gods in every culture.
