The year is 2103 and a new but shaky alliance rules the Cykam Regime across the mainland of Australia.

The Red Guards Captain Rex Golding, after the defeat of the Cykam Army by the Tasmanian Rangers and his own betrayal of the Blue Guards, now controls the city of Launceston. But his reign is about to be interrupted by a mad scientist and a mind altering drug. A badly scarred Sev Walker tries to build a new life in the small community of Ulverstone. The feared assassin known only as The Hatchet comes out of retirement for one last contract killing and the Professor mistakenly insults Maz Wyndham in such a way that could bring destruction to the city of Hobart.

All of this occurs as the citizens of Melbourne begin to learn the truth about the origins of their cult and Saad Dean and his allies fan the flames of civil unrest through the ideology of free energy and a moneyless society.
