Abingdon Pillars of Theology is a series for the college and seminary classroom designed to help students grasp the basic and necessary facts, influence, and significance of major theologians. Written by major scholars, these books will outline the context, methodology, organizing principles, primary contributions, and major writings of people who have shaped theology as we know it today.

Reinhold Niebuhr understood the tensions and complexities of the Christian Life. His approach became to theology became known as "Christian realism." Through his life and work we can see the importance of paying attention to what is really happening and the witness we can make when we look at events with a wisdom shaped by a biblical understanding of history and human nature.

An excerpt from the *Circuit Rider* review: "In the face of recession and a troubled economy, global warming and environmental peril, war and the AIDS pandemic, contemporary Christians would be well served to ponder again the work and witness of Reinhold Niebuhr. His work urges Christians and the church to define and claim our voice in the public arena. Faithful and prophetic witness rooted and grounded in true Christian hope are needed now more than ever. We are grateful to Prof. Lovin for this important contribution to the life of thoughtful faith and faithful living." (Click here to read the entire review.)
