Remnants of Trust: A Central Corps Novel Elizabeth Bonesteel

In this follow-up to the acclaimed military science fiction thriller *The Cold Between*, a young soldier finds herself caught in the crosshairs of a deadly conspiracy in deep space.

Six weeks ago, Commander Elena Shaw and Captain Greg Foster were court-martialed for their role in an event Central Gov denies ever happened. Yet instead of a dishonorable discharge or time in a military prison, Shaw and Foster are now back together on *Galileo*. As punishment, they've been assigned to patrol the nearly empty space of the Third Sector.

But their mundane mission quickly turns treacherous when the *Galileo* picks up a distress call: *Exeter*, a sister ship, is under attack from raiders. A PSI generation ship—the same one that recently broke off negotiations with Foster—is also in the sector and joins in the desperate battle that leaves ninety-seven of *Exeter*'s crew dead.

An investigation of the disaster points to sabotage. And *Exeter* is only the beginning. When the PSI ship and *Galileo* suffer their own "accidents," it becomes clear that someone is willing to set off a war in the Third Sector to keep their secrets, and the clues point to the highest echelons of power . . . and deep into Shaw's past.
