Kenneth E. Easterling

Mechanisms of Deformation and Fracture contains the proceedings of the Interdisciplinary Conference on the Mechanisms of Deformation and Fracture held at the University of Luleå in Sweden on September 20-22, 1978. The papers explore the mechanisms underlying deformation and fracture of materials such as pearlite, metals, quartz, soils, and rocks. Results of theoretical and experimental studies on topics ranging from electromagnetic detection of low-cycle fatigue to stress and strain distribution in two-phase systems are presented.

This book is comprised of 37 chapters and begins with a discussion on the interrelationships among solid mechanics, earth sciences, and material sciences. Subsequent chapters focus on the low-cycle behavior of case hardened steel; deformation and shear of normally consolidated flocculated kaolin; analytical modeling in inelasticity; creep mechanisms in clay; and initiation of crack growth at full plasticity. Plastic flow mechanisms and the rheological properties of the Earth's mantle are also examined, along with the fracture of glassy thermoplastics. The final chapter presents a thermodynamic model of consolidation in cohesive soils. This monograph will be a valuable resource for students and practitioners of mechanical engineering, metallurgy, materials science, and earth sciences.

**From reader reviews:**

**Marian Perkins:**

Have you spare time for any day? What do you do when you have more or little spare time? Yeah, you can choose the suitable activity intended for spend your time. Any person spent all their spare time to take a go walking, shopping, or went to the Mall. How about open or even read a book allowed Mechanisms of Deformation and Fracture: Proceedings of the Interdisciplinary Conference Held at the University of Luleå, Luleå, Sweden, September 20-22, ... and fracture of materials and structures)? Maybe it is being best activity for you. You realize beside you can spend your time with your favorite's book, you can wiser than before. Do you agree with it has the opinion or you have various other opinion?

**Robert Perkins:**

Does one one of the book lovers? If yes, do you ever feeling doubt when you are in the book store? Try and pick one book that you find out the inside because don't judge book by its handle may doesn't work this is difficult job because you are scared that the inside maybe not seeing that fantastic as in the outside appear likes. Maybe you answer is usually Mechanisms of Deformation and Fracture: Proceedings of the Interdisciplinary Conference Held at the University of Luleå, Luleå, Sweden, September 20-22, ... and fracture of materials and structures) why because the fantastic cover that make you consider with regards to the content will not disappoint you actually. The inside or content is fantastic as the outside or cover. Your reading 6th sense will directly make suggestions to pick up this book.

**Gertrude Hoskins:**

Are you kind of active person, only have 10 or maybe 15 minute in your morning to upgrading your mind ability or thinking skill even analytical thinking? Then you are receiving problem with the book compared to can satisfy your short period of time to read it because all of this time you only find reserve that need more time to be examine. Mechanisms of Deformation and Fracture: Proceedings of the Interdisciplinary Conference Held at the University of Luleå, Luleå, Sweden, September 20-22, ... and fracture of materials and structures) can be your answer because it can be read by a person who have those short time problems.

**Carlos Thornton:**

Reading a guide make you to get more knowledge from the jawhorse. You can take knowledge and information from your book. Book is prepared or printed or outlined from each source which filled update of news. In this modern era like today, many ways to get information are available for anyone. From media social such as newspaper, magazines, science book, encyclopedia, reference book, new and comic. You can add your understanding by that book. Do you want to spend your spare time to open your book? Or just seeking the Mechanisms of Deformation and Fracture: Proceedings of the Interdisciplinary Conference Held at the University of Luleå, Luleå, Sweden, September 20-22, ... and fracture of materials and structures)

when you needed it?
