## **Feminine Lost: Why Most Women are Male Jennifer Granger**

Feminine Lost explores the premise that all human beings are constructed of two energies, one masculine and one feminine. With the rise of the feminist movement, many women have migrated to their masculine side, some to the extent of losing access to their feminine side altogether. As a consequence, men have found their way to their feminine side. This process has had huge consequences for relationships between men and women, often leaving them feeling unsatisfied within their relationships or lonely without one.

Feminine Lost examines female archetypes – the Andro Woman, the Cougar, the Good Doer, and more - that have come to the fore since the feminist movement, pairing them with their masculine opposite, and looking at how the process of attraction functions under these circumstances. When the feminine principle breaks down, the ramifications are many. Feminine Lost breaks through the misunderstanding of what it means to be feminine; it is not an outward appearance but something far more significant.
