The User's Directory of Computer Networks Author Unknown
Your map through the network jungle.

Here's how to track down virtually every network available to academics and researchers. This new book, with its detailed compilation of host- level information, provides everything you need to locate resources, send mail to colleagues and friends
worldwide, and answer questions about how to access major national and international networks. Extensively cross- referenced information on ARPANET/MILNET, BITNET, CSNET, Esnet, NSFNET, SPAN, THEnet, USENET, and loads of others is all provided. Included
are detailed lists of hosts, site contacts, administrative domains, and organizations. Plus, a tutorial chapter with handy reference tables reveals electronic mail 'secrets' that make it easier to take advantage of networking.

From reader reviews:

George Harvey:

The actual book The User's Directory of Computer Networks has a lot of knowledge on it. So when you read this book you can get a lot of advantage. The book was authored by the very famous author. The author makes some research prior to write this book. This specific book very easy to read you will get the point easily after reading this book.

David Dugas:

The reason? Because this The User's Directory of Computer Networks is an unordinary book that the inside of the guide waiting for you to snap it but latter it will distress you with the secret that inside. Reading this book alongside it was fantastic author who have write the book in such remarkable way makes the content inside easier to understand, entertaining means but still convey the meaning completely. So , it is good for you for not hesitating having this any longer or you going to regret it. This excellent book will give you a lot of benefits than the other book get such as help improving your expertise and your critical thinking technique. So , still want to postpone having that book? If I were being you I will go to the e-book store hurriedly.

Ronda Hagerty:

Is it an individual who having spare time then spend it whole day by means of watching television programs or just lying on the bed? Do you need something new? This The User's Directory of Computer Networks can be the solution, oh how comes? A book you know. You are so out of date, spending your time by reading in this fresh era is common not a nerd activity. So what these guides have than the others?

Phil Garcia:

Some individuals said that they feel uninterested when they reading a book. They are directly felt it when they get a half areas of the book. You can choose the book The User's Directory of Computer Networks to make your current reading is interesting. Your skill of reading ability is developing when you just like reading. Try to choose very simple book to make you enjoy to read it and mingle the impression about book and examining especially. It is to be first opinion for you to like to wide open a book and go through it. Beside that the e-book The User's Directory of Computer Networks can to be your new friend when you're really feel alone and confuse with the information must you're doing of this time.
